

CELL PHONE POLICY

Adopted by the Burke County Public Library Board of Trustees 12/07/2004

The use of cell phones in the library can often prove disruptive to customers and staff. In order to preserve the library's mission and goals, the following restrictions apply to the use of cell phones at all locations of the Burke County Public Library:

- Cell phones should be turned off or set to vibrate when entering the library.
- People making calls on a cell phone shall leave the building to make the call.
- People receiving calls on a cell phone shall immediately leave the building to continue their conversation.
- Library staff may require that people engaged in cell phone conversations move to the designated areas.
- Refusal to comply with this policy or its intent may result in the offending party being required to leave the library.
